PROFESSIONAL EXPERIENCE

Senior Software Developer | Saabsoft

November 2024 – Present | Remote

UAE Real Estate Platforms | Laravel • PHP • MySQL • React/Next.js

- Engineered multiple Laravel-based real-estate platforms for UAE/MENA clients, supporting property listings, property management, projects, inventory, media, and business workflows.
- Integrated Property Finder, Bayut, Dubizzle, Xploon, Rightmove, Sudonum, and other portals for automated listing and lead synchronization.

Real Estate CRM & AI Lead Automation | Laravel • Next.js • Python • AI • Bitrix24

- Built Bitrix24 CRM automation for lead capture, qualification, synchronization, structured data, and owner assignment.
- Developed an AI-powered lead-qualification chatbot capturing budget, location, property type, rent/sale preference, and customer requirements before CRM handoff.
- Engineered reusable data mapping and CSV/XML workflows with validation and duplicate prevention for large property datasets.

Developer Project Management Platform | Laravel • Next.js • MySQL

- Developed a real-estate developer platform for managing projects, units, availability, pricing, sales pipeline, and property presentation workflows.

UAE HRM & Payroll Platform | Laravel • Next.js • MySQL

- Built HRM workflows for employee management, attendance, leaves, payroll, payslips, loans & advances, and UAE-specific WPS processing.

Senior Software Developer | Oz Techwork / WiseMarket

August 2022 – October 2024 | Lahore, Pakistan

WordPress & E-commerce Development | WordPress • PHP • Custom Themes • Custom Plugins

- Developed and optimized 15+ WordPress e-commerce websites, improving performance, scalability, SEO, and reliability.
- Built custom themes and plugins while replacing heavy third-party plugins with custom PHP solutions to improve speed and maintainability.
- Upgraded and refactored existing WordPress sites, including plugin cleanup, caching, database optimization, and custom functionality.

WiseMarket E-commerce Platform | Laravel • Next.js • MySQL • REST APIs • SMS

- Developed Laravel + Next.js workflows for a multi-country marketplace covering Australia, Pakistan, UAE, and New Zealand.
- Integrated logistics and courier services including TCS, Leopards, M&P, and other delivery APIs for shipment and order management.
- Designed and implemented an end-to-end SMS OTP authentication workflow, integrating OTP generation, delivery, verification, and account activation to secure user onboarding and sign-in.
- Integrated Cin7 and ChannelAdvisor for inventory synchronization across multiple e-commerce marketplaces.
- Migrated legacy WiseMarket data with transformation, mapping, validation, integrity checks, and database consistency controls.

Software Developer | Rezaid

September 2020 – July 2022 | Lahore, Pakistan

Film Production Management Platform | Laravel • React • REST APIs • HubSpot • Slack

- Built a Laravel + React platform for film production workflows, project management, and business operations.
- Integrated HubSpot and Slack to automate CRM workflows, notifications, communication, and project processes.

Employee Management System | Laravel • MySQL

- Built an Employee Management System for internal use and commercial deployment, covering employees, roles, permissions, and business workflows.

WordPress Development | WordPress • PHP

- Engineered custom WordPress themes and plugins while modernizing existing sites, replacing heavy third-party solutions with optimized PHP implementations for improved performance and maintainability.

EDUCATION

Bachelor of Computer Science | National University of Sciences and Technology (NUST), Islamabad | 2016 – 2020
